Laxmidhar Reddy Kothakapu

2400 Linden Dr, Denton, 76201. • +19406293427 • LaxmidharReddyKothakapu@my.unt.edu

Computer Science graduate specializing in CSE, Skilled in coding, Python programming, Java, Cybersecurity, and Databases. Demonstrated ability to apply technical skills in real-world scenarios. Adept at problem-solving, analytical thinking, and teamwork. Eager to contribute to a dynamic team and continue learning and growing in the technology field.

EDUCATION

UNIVERSITY OF NORTH TEXAS — Denton, USA
Masters of Computer Science — August 2025 - May 2027
CGPA: 3.5/4.0

CVR COLLEGE OF ENGINEERING — Hyderabad, India
Bachelor of Technology, Computer Science and Engineering — Dec 2021 - Apr 2025
Specialization in Cyber Security
CGPA: 3.1/4.0

WORK EXPERIENCE

SALESFORCE ADMINISTRATOR VIRTUAL INTERN | SMARTINTERNZ **November–December 2023 | 8 weeks**

- Completed Salesforce Trailhead training in platform fundamentals, organizational setup, and CRM administration.
- Gained knowledge of Sales Cloud, Service Cloud, and relationship management.
- Completed modules on process automation, Salesforce Flow, and Chatter.
- Trained in data management, security, reports, and dashboards; completed the Admin Super Set.
- **Technologies used:** Salesforce CRM, Sales Cloud, Service Cloud, Salesforce Flow, Chatter, Reports & Dashboards, Salesforce Trailhead.

PROJECTS

CONTEXT-AWARE REMINDER SYSTEM AND MITIGATION SYSTEM **April - 2026**
Software Engineering Project

- Developed a context-aware reminder system using Python and Flask to trigger reminders based on user availability, specific time, and fallback deadlines.
- Implemented secure user authentication, reminder management, and automated notification workflows with background scheduling.
- Built a responsive web application, with persistent data storage and secure reminder tracking.
- **Technologies used:** Python, Flask, SQLite, HTML, CSS, JavaScript, SQLAlchemy, APScheduler, Git.

OTT MANAGEMENT SYSTEM **April - 2026**
Database Systems Project

- Developed a web-based Database Query Management System using Flask and SQLite to efficiently manage streaming service subscriptions and content data.
- Designed and normalized a 7-table relational database model up to Boyce-Codd Normal Form (BCNF) to eliminate data redundancy and preserve integrity.
- Implemented a full-stack web interface featuring interactive SQL query execution, batch sample data generation using the Faker library, and dynamic results rendering with CSV/PNG export options.

- Built secure RESTful API endpoints handling complex SQL queries, multi-table JOINs, dynamic filtering, and error handling for robust data interaction.
- **Technologies used:** Python, Flask, SQLite, HTML5, CSS3, JavaScript, REST API, Faker Library, Git.

RANSOMWARE DETECTION AND MITIGATION SYSTEM **December - 2026**

Cybersecurity Project

- Developed a ransomware detection and mitigation system using Python to simulate real-world cyber attack scenarios.
- Implemented hybrid encryption using RSA-2048 and Fernet for secure file encryption and key management.
- Built a real-time monitoring system to detect suspicious ".encrypted" file activity and trigger automated response
- **Technologies used:** Python, Cryptography (RSA, Fernet, SHA-256), SQLite, OS & File System Monitoring.

DECENTRALIZED VOTING APPLICATION **January - 2025**

Blockchain Project

- Built a Decentralized Voting System on the Ethereum blockchain to ensure secure, transparent, and tamper-proof voting.
- Designed and deployed smart contracts to automate voting processes and provide real-time results without intermediaries.
- Enabled global voter participation, allowing users to securely vote from any location while maintaining data integrity.
- **Technologies used:** Solidity, Node.js, React.js, Web3.js, Truffle, Ganache, Fast API.
  Published in *International Journal of Research Publication and Reviews (IJRPR)*

SKILLS

Programming Languages: Python, SQL, Java
Technical Skills: Cybersecurity, Computer Networking, Databases, Operating Systems, RDBMS
Web Technologies: HTML, CSS, JavaScript
Soft Skills: Adaptive, Teamwork, Analytical Thinking, Communication Skills

CERTIFICATIONS

- **GOOGLE CYBERSECURITY PROFESSIONAL CERTIFICATE** — Coursera – Google
- **PALO ALTO NETWORKS CERTIFIED CYBERSECURITY ENTRY-LEVEL** — AICTE – PALO ALTO
- **PYTHON BASICS FOR BEGINNERS AND MYSQL** — EBOX
- **FORTINET NETWORK SECURITY ASSOCIATE CERTIFICATE** — AICTE – PALO ALTO

EXTRACURRICULAR ACTIVITIES

Areas of Interest: Reading Books, Cinema, Travel • **Languages**: English, Hindi, Telugu
